

Light Pong

Matthias Hefel
Elias Sohm

Das Team

A vertical bar on the left side of the slide, composed of several colored segments: light purple, medium purple, teal, and dark purple.

Tischtennis Mit Licht

Architektur

Features

- Automatische Client-Registrierung ESP-NOW
- Punktestand (0 - 9)
- Gewinner
- Feuerball mit Cooldown

Software Architektur

Schläger

- ICM-42688-P via SPI
- LED Matrix
- Buttons

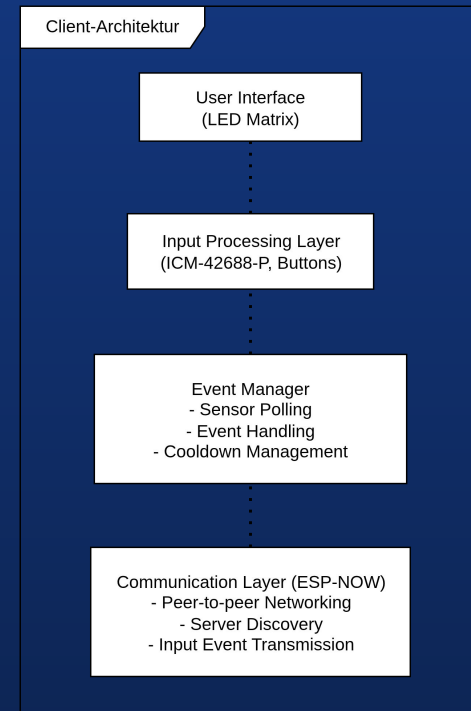

Server

- DMX
- MH_X25
- Game Logic
- Animations

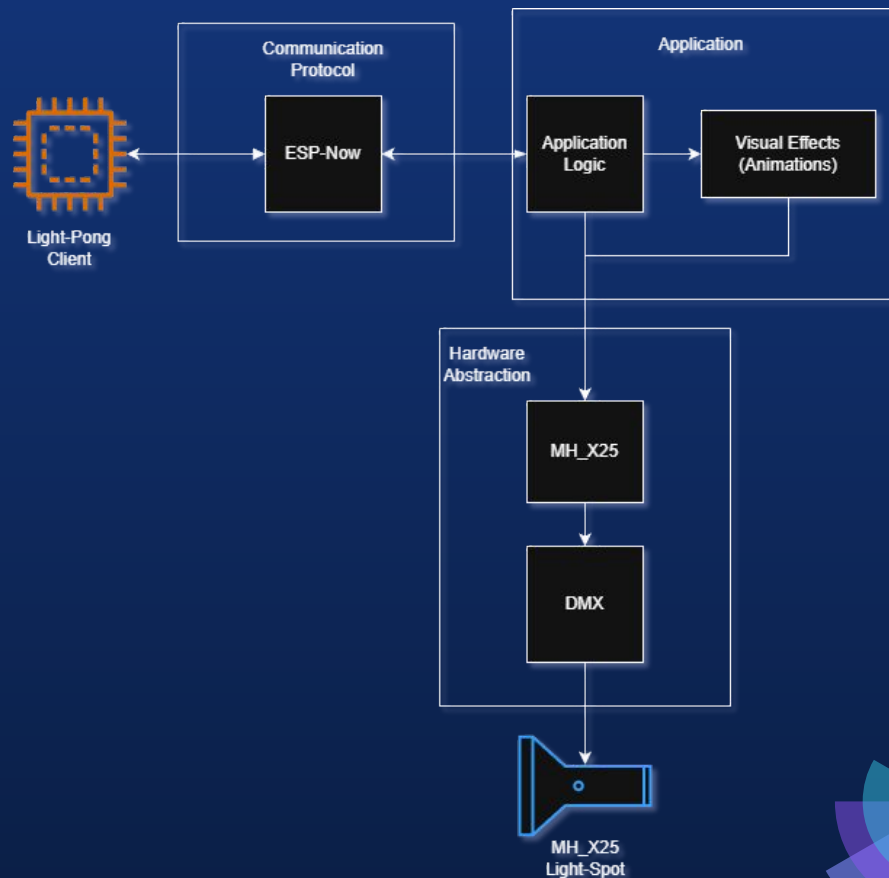

Client-Software-Architektur

- **Modular Component-Based Design** - organisiert in Komponenten die ICM-42688-P, LED Matrix, Buttons und die Kommunikation via ESP-NOW handeln.
- **Wireless ESP-NOW Networking Layer** - peer-to-peer Kommunikation mit Server-Discovery und Übertragung von Input Events.
- **Multi-Sensor Input Processing** - Integration mehrerer Inputs via ICM und Buttons.
- **Real-Time Visual Feedback** - über LED Matrix.

Server-Software-Architektur

- **Layered Architecture**
 - Hardware
 - Device
 - Effects
 - Game-Logic
- **ESP-NOW Server** - Dynamic Discovery, Player Assignment, Score Broadcasting
- **FreeRTOS Multi-Tasking**
 - ESP-Now Communication
 - Game-Loop
 - DMX
- **DMX512 Lighting Control**
- **Game State Machine**

LIVE DEMO

Dankschön!
